

PROFILE

Architectural designer and researcher building explainable spatial systems. I connect design judgment, typological knowledge, and computational methods so spatial decisions remain legible, testable, and revisable.

01

EDUCATION

Aug 2023 - Present
Expected May 2028

Pratt Institute, School of Architecture

- Bachelor of Architecture (B.Arch); Minor in Construction Management
- GPA 3.80 / 4.00 | President's List every semester

2024 | 2026

Harvard Graduate School of Design - Design Discovery

- Virtual Program, 2024; In-person Program, 2026

02

SELECTED RESEARCH & DEVELOPMENT

2026 - Present

ArchFlow - Explainable Architectural Generation System

Founder & Lead Developer

- Building an intent-to-architecture compiler in which briefs become constrained decisions, obligations, geometry, and repairable provenance.
- Separating legality, function, and taste through deterministic validators, causal traces, and critics that rank compliant alternatives.
- Using voxel architecture as a low-cost testbed for false-negative probes, selective repair, and reproducible evaluation.

2018 - Present

Minecraft Architecture Studio

Founder & Lead Designer

- Built and distributed buildings, cities, maps, and modded worlds as reusable spatial systems rather than isolated renders.
- Grew the community to 150K+ followers and 3M+ downloads.

Aug 2023 - Present

Typological Research on China's Third Front Industrial Heritage

- Field documentation and comparative typological analysis of industrial settlements in Xi'an, Kunming, and Chongqing.

03

PROFESSIONAL EXPERIENCE

May 2026 - Present
Remote

Design Collaborator (Project-Based) - line+ studio

- Developed master-model standards and AI-assisted visualization workflows for architectural and urban projects.
- Produced Rhino/Grasshopper terrain systems, D5 previsualization, competition drawings, and visual studies.
- Prototyped reusable AI workflows and documentation for research and production teams.

May 2025 - Aug 2025
Beijing

Assistant Architect - CROSSBOUNDARIES

- Developed interior studies, material options, and visualization packages for the Yijing Clubhouse at Beijing Olympic Park.

Jun 2024 - Jul 2024
Shanghai

Assistant Architect - COSMOS Design

- Contributed to concept design and AI-assisted visual development for the Hebei Wudang Resort using Stable Diffusion and ComfyUI.

04 TEACHING

JAN 2025 - PRESENT

Studio Mentor - Pratt Institute

- ARCH 101-102 and ARCH 202: model-making, Rhino, drawing systems, tectonic reasoning, and review preparation.
- Led tutorials in Adobe Illustrator and D5 Render.

SEP 2025 - PRESENT

Structures Tutor - Pratt Institute

- Individual and group tutoring in statics and steel structures.

06 EXHIBITIONS & LEADERSHIP

MAY 2026

Exhibition Designer - "The Air We Breathe," BronxArtSpace

- Designed a two-week exhibition on locally sourced, low-carbon building materials with Mothers on the Move and Pratt Institute.

AUG 2025 - PRESENT

President - Pratt Global Forum

- Secretariat - ARTCSSA

07 TECHNICAL SKILLS

Spatial Computation

Rhino, Grasshopper, Python, JavaScript, procedural and grammar-based modeling

BIM & Documentation

Revit, AutoCAD

Visualization

D5 Render, V-Ray, Enscape, Stable Diffusion, ComfyUI

Web & Development

HTML/CSS, Git, Netlify; AI-assisted development workflows

Graphic

Adobe Creative Suite

Fabrication

3D printing, CNC milling, laser cutting

05 AWARDS & RECOGNITION

MAY 2026

Michael Hollander Award - Honorable Mention in Drawing

MAY 2025

Finalist & Team Leader - Portugal Vez River SPA Competition

JAN 2025

Finalist & Team Leader - The Last Nuclear Bomb Memorial

DEC 2024

Best Studio Project - Harlem Bathhouse, Pratt First-Year Design Studio

MAY 2024

Michael Hollander Award for Excellence in Drawing

- Best drawing among all first-year students; selected for the School of Architecture's permanent collection.

2023 | 2026

Selected for the Pratt School of Architecture Studio Archive - 2 projects

- Technics, 2023; ARCH 302, 2026

08 RESEARCH FOCUS

Explainable generative design

Architectural decision systems

Computational representation

Housing and urban typology

09 LANGUAGES

Mandarin Chinese

English - TOEFL 111
